THE CENTER FOR AUTO RACING
MEMORABILIA IN NEW ENGLAND

A Memory At Every Turn

Located in a nondescript turn-of-the-century structure in Pawtucket, RI, is New England's only museum dedicated to auto racing history.

Memorabilia from Southern New England's stars, cars and ovals are lovingly and proudly displayed on literally every wall.

Ric Mariscal and R.A. Silvia have been collecting and preserving the history associated with auto racing for years.

Mariscal states that it was put together in 2003 in the 7,400 square foot facility on Cleveland Street.

The New England race fans say the place is an indescribable treasure full of memories and artifacts.

Among the hundreds of trophies on display are many from Bugs Stevens, Mike Stefaniak, and Dave Humphrey.

A complete set of plaques honoring the NEAR Hall of Fame inductees covers a complete hallway.

Over 10 vintage race cars are displayed in one room graced by many trophies, photos and more memorabilia.

Several of New England's most famous race cars are prominently displayed. Two of Len Boehlers modifieds "Ole Blue" and the white Vega. Sonny Kozsela's #15 Pinto and the infamous "Woodchopper Special" are all there along with a #28 Ralph Moody midget car replica built by Ray Janelle.

Special displays highlight Speedways and are rotated for special events.

A media room and library are located on the second floor. A computerized-simulation is available. A photo room that is second to none and hundreds of magazines and track programs fill another room.

The gift shop has plenty of die-cast and other mementos for sale. Pronyne cars are available for different events on request and do move some of them around along with the NEAR Hall of Fame truck.

For more information or to schedule a visit call (401)447-4202 or (401)739-0039.

Curator - Ric Mariscal.
